CAREER OBJECTIVE

I am a dedicated B.Tech student and an enthusiastic Java learner with a strong passion for programming and technology. I am continuously enhancing my knowledge in Object-Oriented Programming and problem-solving skills through consistent practice believe in disciplined learning, self-improvement, and staying updated with emerging technologies. My goal is to build a successful career as a software developer and contribute meaningfully to innovative projects in the tech industry.

EDUCATION

•Ashoka Women's Engineering College, Kurnool.	2023-2027
B.Tech in computer Science and Engineering	PERCENTAGE:77%
•Narayana Junior College, Anantapur.	2021-2023
AP Board of Intermediate in MPC	Percentage: 81.8
•Prasad Concept School,	2021
AP Board of Secondary Education	GPA:10/10

TECHNICAL SKILLS

- **Programming Languages:** JAVA, SQL
- **Web Technologies:** HTML, CSS, JavaScript, UI/UX Design, MERN Stack(MongoDB, Node.js)
- **AI/ML:** Artificial Intelligence, Machine Learning
- **Core Skills:** Data Structures & Algorithms, System Design, Software Testing
- **Database Systems:** DBMS, MySql
- **Data Visualization:** Power BI, Excel, Word, PPT
- **Cloud Computing:** AWS
- **Tools:** Figma, Canva, VS Code, GitHub

TECHNICAL SUMMARY

Programming Languages:

- Proficient in **Java**, enabling development of object-oriented applications with a strong grasp of core programming concepts. Skilled in **SQL** for querying, manipulating, and managing relational databases effectively.

Technologies:

- Experienced in building responsive and interactive web pages using **HTML, CSS, and JavaScript**. Knowledge of **Node.js** allows for backend development and server-side scripting, supporting full-stack web application development.
- Skilled in **user-centered design** using Design Thinking and User Research.

- Experienced in **usability testing** and **responsive design**, with the ability to create intuitive, accessible, and visually appealing interfaces.
- Familiar with **DBMS** concepts and experienced in **MySQL** for designing schemas, writing queries, and performing CRUD operations.

PROJECTS

Digital Learning Platforms for Rural Areas School in Nabha.

sep 2025

Role Played: Team Leader

Language/FW: Java, SQLite

- It helps in accessing the students with quality education through online lessons and interactive content.
- It reduces the gap between rural and urban education by providing equal learning opportunities.
- These platforms teaches more effective and deeper.

Sudoku Solver Using Java with Data Structures and Algorithms.

July 2024

Role Played: Team Member

Language/Technologies: Java, OOP

- Implemented Sudoku Solver using Back Tracking & Recursion.
- Applied row, column, and 3*3 sub-grid constraint checking.
- Validated the final solution for correctness

TRAINING ATTENDED

GRADSTREET- DATA STRUCTURES AND ALGORITHM PROGRAM

- Learned advanced problem-solving techniques in **DSA**, system design basics, and participated in mock technical contests. Topics covered: **Arrays, Trees, Graphs, Dynamic Programming**, and more.
- Solved 500+ CodeChef coding problems and implemented problems in Java
- Solved 50+ leetcode coding problems in the language of Java.

CERTIFICATIONS

- Certified in Data Base Management System and English Language for Competitive Exams in NPTEL. May 2025
- Certified in Infosys SpringBoard for Basics of Python. 12 oct 2025
- Certified in Java Programming for Beginners. 21 Jan 2026
- Certified in Basics of python. 12 Oct 2023
- Certified in Quantum Fundamentals program in Qubitech. 04 Feb 2026
